Intensive Spring Program Stimulating Language, Play & Socialization

Come join our Engines as Play and Tiny Tots groups as we embark on a fun filled spring time adventure focused on enhancing development of language, play and socialization.

These groups will maintain a small adult to child ratio and will be led by our team of skilled occupational and speech-language therapists, addressing sensory-motor, attention, regulation and language skills while focusing on interaction and relationship development. After all, it is through the context of relationships that we all learn and thrive!

The Spring Program will be offered for children ages 2-7 years old who have language and/or sensory motor delays.
