

About Us

Come join our Engines at Play and Tiny Tots groups as we embark on a fun filled Summer time adventure focused on enhancing sensory processing, development of language, play and socialization.

The principles of *DIR/Floortime*(TM) are at the core of our program.

Our Intensive Play Social Groups are dedicated to facilitating sensory and language skills while focusing on social emotional development.

These groups will maintain a small adult to child ratio and are led by our team of skilled occupational and speech-language therapists, addressing sensory challenges, attention, regulation and language skills while focusing on interaction and relationship development.

After all, it is through the context of relationships that we all learn and thrive!

Integrated Children's Therapy is a multidisciplinary pediatric center specializing in occupational and speech-language therapy, with an emphasis on social and emotional development.

At ICT we join together as a team in identifying factors interfering with development and impacting behavior. ICT supports the child, his/her family, as well as his/her entire team through the therapy process, providing them with the tools that will allow the child to flourish.

Engines at Play & Tiny Tots Summer Intensive Programs

Helping Kids
Be Kids!

*Integrated Children's
Therapy, LLC*

*Amanda Alvarez, CCC-SLP, Inc.
Veronica Cabrera, OTR/L, P.A.*

Is your child:

- Engaging in cooperative play with other children.
- Taking turns when playing.
- Communicating with peers to organize a game or just to clown around.
- Compromising to facilitate group play.
- Knowing how to appropriately join an activity with other children.
- Persisting with an activity when something is difficult.
- Initiating or returning greetings with other children.

If your child struggles with any of these or other related challenges, he/she would greatly benefit from participation in the

Engines at Play & Tiny Tots Summer Intensive Programs

Early intervention is the key for success!

Let your child embark on our fun filled sensory-motor and language learning adventure led by our team of skilled occupational and speech-language therapists.

Let's make it a summer experience to remember!

Our goal is to help your child maximize his or her potential by closing developmental gaps and nurturing social and emotional growth.

The Intensive Summer Programs are for children ages 2 to 7 years old.

While chronological age is used as a guideline, we consider the developmental age and needs of the child when determining camp placement in one of our three groups:

Engines at Play, Little Engines, and Tiny Tots.

Intensive Programs Aimed at Stimulating Socialization Skills, Focusing on Language, Communication, Sensory and Self-Regulation Skills
